Issued: September 28, 2004)
For: MEDICINAL PRODUCT AND METHOD)
FOR TREATMENT OF CONDITIONS)
AFFECTING NEURAL STEM CELLS)
OR PROGENITOR CELLS)

Certificate
OCT 1 2 2004
of Correction

REQUEST FOR CERTIFICATE OF CORRECTION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Issuance of a Certificate of Correction for the above-captioned patent is respectfully requested in accordance with the accompanying Form PTO-1050 (submitted in duplicate).

In the Examiner's Amendment mail-dated September 7, 2004, an "s" was omitted from the term "cell" in steps (B) and (C); it should be "cells" as recited in other steps of the claim. Applicant's representative spoke with the Examiner, who indicated this was a typographical error and should be corrected. Therefore, a Certificate of Correction is requested based on the attached PTO-1050.

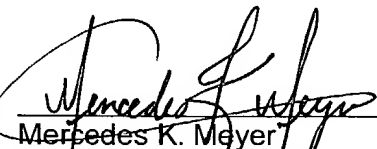

It is believed that payment of a fee is unnecessary.

The Commissioner is hereby authorized to charge any appropriate fees under 37 C.F.R. § 1.116, 1.117, and 1.21 that may be required by this paper, and to credit any overpayment, to Deposit Account No. 02-4800. This paper is submitted in duplicate.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.

Date: October 5, 2004

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 6,797,264 B1
DATED : September 28, 2004
INVENTOR(S) : Peter Eriksson

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Claim 59. A method of propagating cells selected from the group consisting of neuronal progenitor cells and neuronal stem cells in, or derived from, the central or peripheral nervous system in a patient in need of neuron propagation comprising:

- (A) administering a composition comprising a pharmaceutically effective amount of a growth hormone to said patient, wherein said pharmaceutically effective amount is effective to propagate neuronal progenitor cells and neuronal stem cells;
- (B) removing brain cells from said patient after said administration;
- (C) propagating said brain cells *in vitro*; and
- (D) transplanting the propagated brain cells into said patient.
